

STARC On-the-air Meeting Script

Good Evening Everyone. This is (CALL), (name), and I'll be the net control for this evening's on the air meeting of the South Texas Amateur Radio Club.

At this time, we will take a stand-by for any priority or emergency use of the repeater. This is (Call).

Hearing nothing, we'll go ahead and start the net.

This net is open to all licensed amateur radio operators. You do not have to be a member of STARC to participate. The 146.820 repeater has a negative off set and requires a tone of 107.2. The repeater has a 2 minute timeout, so please remember to rekey your mike if you get long winded.

The basic format is that we will take a list of check-ins. We will then go over a list of announcements. We will then go down the list of check-ins for comments. If you would like to check-in to the net with or without comments, please call net control at this time with your call sign only, this is (Call).

(after about 5-8 check-ins, acknowledge those checked in)

Do we have any More Check-ins?

(Announcements – Check the STARC calendar for updates)

Any additional check-ins?

Comments (call each call sign for comments, if a long list take check-ins somewhere along the list)

Any additional check-ins or rechecks?

Hearing nothing, we will go ahead and close this session of the STARC on-the-air meeting. We had a total of ## check-ins tonight. I'd like to thank everyone that checked-in and those that participated with comments.

We will now return the 146.82 repeater back to normal amateur radio use. This is (call), 73.
